Exhaust: All over the ground

Boiler:

Type: Bolsover

Number of Tubes: -

Overall Size: -

Controls: -

Location: Behind Seat

Size of Tubes: -

Burner: Propane Bayou Classic 10" Banjo

Other: Car was found on Craigslist in a barn in Montana. Replica car, built in the 50s or 60s around an original engine. Joe is currently replacing the badly weathered wood body, replacing the boiler and water tank, and repairing the rust damage on the engine. The boiler that came with it *did* steam for a short time... until it didn't.
